WORK EXPERIENCE

MERN/INTERN Codup

04/2022 - 07/2022

Karachi

Achievements/Tasks

- Working on frontend sides And learning how backend & database work

Frontend Developer Decotechs

08/2022 - Present

Karachi

As a front-end developer, I specialize in React, where I create efficient and reusable components for complex applications. I also have experience in using Redux for state management, as well as Material-UI and Ant Design for styling. In addition, I have utilized styled components to create reusable styling in my applications.
